BOVRIL AT THE FRONT.

Bovril has played such a conspicuous part in South Africa that it forms no inconsiderable
feature of the story. The "Lancet" has had frequent references to Bovril in the reports of
the officers of the Royal Army Medical Corps. Nearly every newspaper correspondent has
had to refer to Bovril to make his story complete. Rudyard Kipling and Baden-Powell
have written their Bovril stories. Over 50 British hospitals and similar public institutions
use and prescribe Bovril, not beef tea, but Bovril.

The reason is not far to seek. Bovril is a nourisher as well as a stimulant. It contains
the albumen and fibrine, the sustaining properties of the beer. It is this fact, together with
its absolute purity, that commends Bovril to physicians and scientists, and proves in practice
what it demonstrates in analysis. [C]

Record Trip Yokohama to San Francisco made by s.s. "KOREA," 12,000 tons, Oct. 18th-28th, 1902; 10 days, 15 hours.

THE P. M. Company's Steamship "KOREA" will be despatched for SAN FRANCISCO, via SHANGHAI, NAGASAKI, KOBE, INLAND SEA, YOKOHAMA and HONOLULU, on SATURDAY, the 13th instant, at Noon, taking Freight for Japan, the United States, and Europe. Passengers are allowed to break their journey at any point en route.

Through Passage Tickets granted to England, France and Germany by all trans-Atlantic lines of Steamers, and to the principal cities of the United States or Canada.

Passengers holding through ORDERS TO EUROPE have the choice of the Overland Rail Routes from San Francisco, including the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and NORTHERN PACIFIC RAILWAY; also the CANADIAN PACIFIC RAILWAY on payment of £4 in addition to the regular tariff rate.

Passengers holding Orders for OVERLAND CITIES in the United States have between SAN FRANCISCO and CHICAGO, the option of the SOUTHERN PACIFIC, CENTRAL PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and other direct connecting Railways, and from Chicago to destination the choice of direct lines.

Special rates (First-class only) to European Ports, are granted to Missionaries, Members of the Naval, Military, Diplomatic and Consular Services, and European Civil Service Officials located in Asia, and to European Officials in the Service of the Governments of China and Japan.

TO UNITED STATES AND CANADIAN PORTS, Special rates (first class only) are confined and will apply only to Missionaries, Members of the Naval and Military Services, and to Consular and Diplomatic Officials of the Governments of China and Japan.

Return Passage.—Reduction will be made to passengers who do not hold return tickets, making the return journey between ports in the Orient and Honolulu or beyond, within twelve months.

Through Bills of Lading issued for transportation to Yokohama and other Japan Ports, to San Francisco, to Atlantic and Inland Cities of the United States, via Overland Railway, to Havana, Trinidad, and Demerara, and to ports in Mexico, Central and South America, by the Companies' and connecting Steamers.

Freight will be received on board until 4 P.M. the day previous to sailing. Parcel Packages will be received at the Office until 5 P.M. same day; all Parcel Packages should be marked to address in full; value of same is required.

Consular invoices to accompany each shipment of Cargo or parcel (valued at \$100. Gold or over) destined to Ports, beyond San Francisco, in the United States, should be sent to the Companies' Office addressed to the Collector of Customs at San Francisco.

Merchant's Invoice will be sufficient for cargo or parcel (each shipment) when the value is less than \$100 U.S. Gold.

For further information as to Passage and Freight, apply to the Agency of the Companies, Queen's Building.

"ATHENIAN"	3,882	WEDNESDAY, 27th May, 1903.

THE magnificent "EMPRESS" Twin-screw Steamships of this Line pass through the famous INLAND SEA OF JAPAN, and usually make the voyage YOKOHAMA TO VANCOUVER (B.C.) in 12 DAYS, ("TARTAR" and "ATHENIAN" 14 DAYS), saving THREE DAYS TO A WEEK in the Trans-Pacific journey, and make connection at Vancouver with the PALATIAL OVERLAND TRAINS OF THE CANADIAN PACIFIC RAILWAY which leave daily, and cross the Continent FROM THE PACIFIC TO THE ATLANTIC WITHOUT CHANGE. Close connection is made at Montreal, Quebec, Halifax, New York and Boston with all Trans-Atlantic Lines, which passengers to Great Britain and the Continent are given choice of.

Passengers Booked through to all principal points and AROUND THE WORLD. Return tickets to various points at reduced rates, Good for 4, 6, 9 and 12 months.

SPECIAL RATES (First class only) granted to Missionaries; Members of the Naval, Military, Diplomatic and Civil Services, and to European Officials in the Service of China and Japan Governments.

The attractive features of the Company's route embrace its PALATIAL STEAMSHIPS, (second to none in the World), the LUXURANCE OF ITS TRANS-CONTINENTAL TRAINS (the Company having received the highest award for same at Chicago World's Exhibition), and the diversity of MAGNIFICENT MOUNTAIN AND LAKE SCENERY through which the Railway passes.

THE DINING CARS and MOUNTAIN HOTELS of this route are owned and operated by the Company, and their appointments and Cuisine are unexcelled.

MINING IN WEIHAWEI.

At this time, when the consistent fall in the value of silver is turning every one's thoughts to the urgent necessity of giving China gold standard, the question is asked why a land known to be gold bearing from East and from North to certainly as far South as the Valley of the Yangtze River, should make no efforts to obtain the golden store hidden within its boundaries.

The gold mines of Manchuria and Mongolia have been worked for centuries, whilst the quantity of alluvial gold found annually along the Yangtze River and its tributaries show conclusively what prizes await the intelligent prospector if he be not hampered by officialdom. In the province of Changlung extensive gold mining operations have been carried on and mining.

ENGINEERS HAVE REPORTED MOST FAVOURABLY ON MINES.

which, remaining under Chinese control, are badly equipped, worse managed, and are strangled by the local authorities. Gold mining has been carried on at WeihaWei for many years and the population until recently regarded the industry as their principal support. Several villages lived entirely by mining, and the cave-dwelling and tailing dumps remaining go to prove how extensive their operations were. The alluvial workings, having been washed over several times, are necessarily poor and hardly worthy of serious consideration, but the magnificent gold bearing quartz veins traceable over great distances and with gold contents equal to and in some instances larger than those which the principal Pan mines carry, are only awaiting capital and science to show the Chinese Government what loss their policy of inactivity entails on the country. Luckily WeihaWei is British territory and the Commissioner

MR STEWART LOCKHART IS FULLY ALIVE TO THE MINES THEREIN.

Mining regulations have been drawn up and forwarded to the Colonial Office in London for approval of the Crown, whilst prospecting and mining operations receive every encouragement.

Since the Japanese occupation little actual mining has been done, as many natives, being suspicious of foreigners, migrated to other parts of the province.

The best mining areas have been taken up and considerable expense has been incurred in prospecting operations, surveys, etc., by the companies interested.

It is almost unnecessary to state that the companies working in WeihaWei have security of title and are free from the numerous obstructions of Chinese officials, but other advantages exist which are of utmost importance where mining is in question. There is for instance

ABUNDANCE OF CHEAP LABOUR accustomed to mining, also the mining areas being near the sea, expensive transport is unnecessary, fuel is cheap, whilst machinery and explosives enter duty free.

It is satisfactory to learn that the Territory is being carefully prospected, and that although WeihaWei, owing to past treaties, is never likely to become a big trading centre there is good reason to believe it may become an important gold mining district and by its good example assist in the proper development of Chinese mining. — *China Gazette*.

COTTAM & CO., FOR CENTRAL RAILWAY, HONGKONG.

THE WORLD'S COTTON SUPPLY.

It is not conducive to our sense of national esteem to find that Germany, one of the latest Powers in the field, is showing the way to England in several important departments of Colonial enterprise. Great Britain, the principal African Power, can show nothing to equal the patient scientific research undertaken by the Germans in East Africa to improve the conditions of life for the White Man in tropical countries. Recently the Lancashire spinners formed a British Cotton Growing Association to inaugurate a movement for the encouragement of the production of the staple in the British Colonies. They are two years behind their German competitors, who since 1900 have been busy testing the cotton-producing capabilities of their East and West African possessions, and the British Association will have to take their first lessons from their rivals. One cannot fail to admire the practical sagacity and foresight with which the Germans have conducted this, in common with many other commercial experiments. The work was undertaken by the Colonial Agricultural Committee with the financial help of the spinners. The first trials were made in Togo, where cotton was already cultivated by the natives, whose abilities, as well as the conditions of soil and climate, afforded good prospects for the employment of rational methods. An American expert was engaged, and the results already achieved hold out hopes that in a few years Togo will produce many thousand bales of cotton. A new company has been formed for the purchase of cotton from the natives and the opening of small model farms, whilst one of the companies proposes to take Germans to the Southern States of the Union for instruction. The experiment in East Africa has been more recently instituted. An expert has been sent from the Colony to the United States to study the methods of cotton growing, and to bring over a number of skilled negro farmers from the Tuskegee Institute, who will work in East Africa as cotton farmer under his supervision. The quality of the Togo cotton, and that raised on the East African Mission farms, is classed as "good middling."

The Germans have led the way in two directions, first in co-operating to increase the field of cotton supply, and secondly in fixing upon Africa as the theatre of their experiments. As we pointed out at the time, any attempts of the British Cotton Growing Association to draw their supply of long-stapled cotton from India are foredoomed to failure. The recent experiments in hybridization carried out by the Agricultural Department held out promises of a great improvement in the character of the Indian product; but with increasing attention to fine spinning in the local mills, nearly all the long-stapled cotton grown in the country will be absorbed by the internal demand. Africa, on the other hand, provides a field large enough to render Europe independent of the American cotton supply. In West Africa, beyond the forest girdle, there are vast tracts of land fitted and used for the cultivation of grain and cotton. In German East Africa, in the valley of the Rufiji River alone, there are estimated to be from three-quarters to a million of acres of uncultivated land suitable for cotton growing. Signor Fernando Martini, one of the ablest administrators whom Italy has sent to Erythraea, avers that one of the chief sources of the Colonies' prosperity will be the cultivation of cotton, and some of the cotton growing

COTTAM & CO., FOR TRESS'S STRAW AND FEET HATS.

lands there are yielding a profit of £18 an acre. It should be unnecessary to show how exceptionally favoured Great Britain is situated in this regard. In Nigeria there are millions of acres as well suited as Togoland and the Cameroons to cotton growing; and it is proved that a good staple can be easily grown in Sierra Leone. The East and Central Africa Protectorates offer equal facilities, and Count Gleichen, in a recent address to the Manchester Chamber of Commerce, pointed out the enormous cotton-growing possibilities of the Nile Valley. Moreover, the British cotton lands now possess transport facilities which the Germans lack. The mill is complete from Uganda to the sea; in Sierra Leone a light line is being pushed into the hinterland; Nigeria controls a mighty navigable river; and the long delayed Central African railway has been sanctioned. The Germans have been in advance of their transport facilities; the British behind. There is little doubt that if the British Cotton Growing Association push forward their experiments with the same shrewd practical enterprise as their rivals, the African Colonies will be found, by slow degrees, capable of producing nearly all the cotton the Lancashire spinners require. — *Times of India*.

PIRACY AT AMOY.

A few nights ago, a daring robbery was perpetrated close to an island a mile to the west of Amoy called Monkey Island, on a Chinese cargo boat. But the pirates did not have everything their own way, for the crew of the cargo boat returned the fire, and shot one man, and took four other men prisoners. There can be no doubt that the Chinese authorities are half asleep, and do not patrol the waterways in the immediate neighbourhood of Amoy as they ought to do. The natural formation of the estuary, in which the island of Amoy lies, with its numerous inlets where bands of pirates can lie in ambush, ready to pounce upon unwary boats, lends itself very favourably to these night attacks, and the only remedy is in a continual vigilance, which, alas, is the one thing the Chinese are apparently unwilling or unable to consent to. If the inland waterways of China are to be open to foreign traffic, as was promised with great élan by the British Government some years ago, and confirmed in the recent new Treaty, more pressure should be brought to bear upon the Chinese to protect the natural trade routes from pillage and robbery. Otherwise endless disputes will arise, proving a hindrance to commerce, and causing irritation and delay. These robberies are always more numerous towards the end of the Chinese year, and in times of drought and bad harvests. Yet most of them might be prevented, if only the mandarins did their duty. But what a lot of virtue there is in an "if." — *N. C. D. News*.

BABIES AND CHILDREN.

should be fairly plump. They ought to put on fat as fast as they use it up; for fat is fuel, and the burning of it makes power and force. Thin children—even along to the age of eighteen or twenty—are in danger from consumption; and from other wasting complaints. The children who starve, and the young men and women who are consumed—why, the very idea of it is frightful. For such as they there is always what the Bible calls a "mighty famine" in the land. Food, though it may be taken plentifully, does not nourish them. It makes no fat; it gives no strength. To prevent this, to cure this, to save the young ones at the mother's knees, and the bright boys and girls who are just looking at the world with hopeful and ambitious eyes, is the purpose of

WAMPOL'S PREPARATION.

Its success is decided and settled. Thousands owe to it life and health. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. In building up pale, puny, emaciated children, particularly those troubled with Anemia, Scrofula, Rickets, and bone and blood diseases, nothing equals it; its tonic qualities are of the highest order. Parents whose children are sick cannot resort to it a day too soon. A Medical Institution says: "We have used your preparation in treating children for coughs, colds and inflammation; its application has never failed us in any case, even the most aggravated bordering on pneumonia. The children like it, they love the taste of it, it looks good to them, and it builds up their bodies; many little children owe their lives to it." The more it is used the less will be the ravages of disease among the people from infancy to old age. Every dose effective. "You cannot be disappointed in it." At all chemists and A. S. HONGKONG, TUESDAY, DECEMBER 9, 1902.

LOCAL AND GENERAL.

THE ENGLISH MAIL of the 8th November was delivered in London on the 6th inst.

A. E. ALVES, stroke of the Portuguese crew is unwell, and it is doubtful whether he will be able to compete in the Regatta.

ATTEMPTED SUICIDE—A native, charged with stealing brass at Hungnam, while in the cells at the magistracy awaiting trial tied his jacket around his neck and endeavored to commit suicide. For stealing the brass he got 14 days, and for attempting to take his life another 14 days.

A NATIVE CRIB-CRACKER, answering to the name of Tam Hung, and a string of aliases, was charged before Mr. F. A. Hazlewood this morning with breaking into a dwelling house in Chinese street, and purloining several articles. When searched he was found to be in possession of the proverbial dark lantern, skeleton keys, and jemmy. Six months' hard labour.

AN EXAGGERATED REPORT appears to have gained currency respecting a robbery at Connaught House Hotel. Instead of several hundred dollars' worth of property being missing, and the unfortunate occupants of the room being left without a suit of clothes, the thief got away with a "valuable clock," ticked at 15/-, and an assortment of ties, two hair-brushes, a mackintosh, and a pair of white boots.

TWO MORE COLLAPSES—The wet weather is beginning to tell on the buildings of the Colony. Yesterday afternoon Nos. 434 and 436 Des Vaux Road collapsed injuring two men who were sent to Hospital. The premises were used as godowns, and had a large quantity of rice, hemp, yarn and beans stored in them. At nine o'clock this morning a portion of a building in course of erection at the corner of Old Bailey, Elgin and Caine Roads fell with a crash slightly injuring a youngster passing at the time. It appears that a quantity of bricks piled on the top of the building fell over, and brought away some of masonry.

THE DUCK MEETING—We are requested by the Chairman of the Hongkong and Whampoa Dock Co., Ltd., to point out that in the concluding sentence of his second speech he said, "I am anxious that the question be settled to-day for all times." We also take this opportunity of pointing out a curious and funny mistake on the part of our not yet fully fledged stenographer when he made Mr. H. E. Pollock to say that "the undertaking will involve ducklings or perhaps more technically the capital of this Company," when, in reality, what Mr. Pollock did say was as follows:—"In the undertaking which will involve doubling, or perhaps more than doubling the capital of this Company."

EXCITEMENT ON LAN TAU ISLAND—Before Mr. Kemp this morning four evil-looking celestial beings were charged with robbery on Lan Tau Island. It was stated that about 6 a.m. on Saturday a number of villagers residing in a matched left the place and placed a lad of 16 in charge. An hour elapsed and four men entered the matched, and after threatening the youngster, gagged him, and tied his hands behind his back and proceeded to ransack the place. Somehow or other the lad managed, to loosen his bonds, and immediately took a boat and reported the matter at the nearest village. Quite an army was got together, and whilst the robbers were at their tolls, they were surrounded and captured. The miscreants were then conveyed to an old Customs house, and locked in a strong cell. In the meantime the police were notified, and on the appearance of Sergeant O'Sullivan the robbers were given into custody. The case was adjourned till Friday morning.

THE MARINE COURT.

REFUSING DUTY AND ASSAULTING AN OFFICER.

Four European firemen of the steamer *Lupat* were charged before the Hon. R. Murray Rumsey at the Marine Court this morning with refusing duty, and one of them with assaulting the mate. They said they could not remember having refused duty. Mr. G. C. Master appeared for the prosecution; the men were not defended. Witnesses were called, the men were found guilty and three of them were sentenced to seven days' hard labour in addition to paying a fine of two days' pay. The fourth man was then tried and found guilty of the additional charge. His Worship said:—"It is a very serious thing when seamen assault their officers, and though you may have been drunk you will have to stand the consequences." Six weeks' hard labour.

ASK for ASAHI JAPANESE BEER—G. Gault.

LEGISLATIVE COUNCIL.

A meeting of the Legislative Council was held this afternoon in the Council Chamber. There were present—His Excellency the Governor, Sir Henry A. Blake, G.C.M.G., Major General Sir W. J. Gascoigne, K.C.M.G., (Officer Commanding the Troops), Hon. F. H. May, C.M.G. (Colonial Secretary), Hon. Sir H. Spencer Berkeley, K.B. (Attorney General), Hon. Dr. F. W. Clark, (Medical Officer of Health), Hon. Commander R. M. Rumsey, R.N. (Harbour Master), Hon. A. M. Thomson, (Colonial Treasurer), Hon. W. Chatham, (Director of Public Works), Hon. C. W. Dickson, Hon. C. S. Sharp, Hon. G. W. F. Playfair, Hon. R. Shewan, Hon. Dr. Ho Kai, Hon. Wei A Yuk and Mr. C. Clementi, (Acting Clerk of Councils).

EMPLOYERS AND SERVANTS.
The Hon. Sir H. May seconded the Bill moved the third reading of the Bill entitled An Ordinance to amend the Law relating to Employers and Servants.

The Hon. F. H. May seconded the Bill was read for the third time and passed.
The Council then went into committee on the Bill entitled An Ordinance to consolidate and amend the Laws relating to Public Health and to Buildings.
(Proceeding.)

PYGMALION AND GALATEA.

AT THE THEATRE ROYAL.

The miserable woe of the past few days must be held accountable for the limited attendance at the City Hall where the Janet Waldorf Company has been presenting a series of plays. With the raising of the curtain last evening on *Pygmalion and Galatea* there was no change. Outside, the rain pelted down on to the muddy and deserted streets; inside, the Company was delighting a small audience with Gilbert's clever classical comedy. It is needless to dwell upon the story unfolded in three acts; those who were present followed its strange course; absentees must take an assurance that the piece is worth seeing. As to the individual players, Miss Janet Waldorf, as *Galatea*, and Mr. Norval McGregor, in the role of *Pygmalion* call for first mention. To be candid, we did not like our favourite in the impersonation of *Galatea*—either the character did not suit her or she was unsuited to the character. We fancy it was the latter, for as Miss Waldorf has made so many fine appearances her interpretation of the most difficult of characters is generally assured. Take, for instance, the difficult task in essaying the part of *Camille*. Extremely skillfully Miss Waldorf marked the varying mood of *Camille* by act; from the opening of the play, through the wild mad spirit and frozen desire to go to the world to the intense passion of the final act. In that she fought a good fight, and may be warmly congratulated upon the artistic spirit which prompted her to take such a difficult role, and the artistic ability which enabled her to justify her ambition so remarkably. Of Mr. Norval McGregor, we have little to add to the congratulations already accorded him. He is animated with the spirit of the play, and what some of his supporters may lack in feeling and passion is amply repaired by this bright actor. Mrs. Dow-Currier can always be relied upon to bring a touch of humour to the stage and last evening was no exception to the rule. The *Chrysois* of Mr. Wilson Forbes was good and helped considerably to sustain the piece. The Company will give another performance of the play this evening, and to-morrow intend producing *Sherlock Holmes*. A full house is expected.

The Evacuation of Shanghai.

OFFICIAL CORRESPONDENCE CONCERNING IT.
JAPAN'S POINTS OF VIEW.

LONDON, 3rd Dec., 6 p.m.

The official correspondence concerning the evacuation of Shanghai was published to-day. It appears that Germany was asked by Lord Lansdowne in August last and consented in general terms to the evacuation, but in October Germany stipulated with the Peking Government that the Yangtze Viceroy should engage not to grant any lower special political military, maritime, or economic advantages nor allow the occupation of any other points commanding the Yangtze River, either below or above Shanghai. Prince Ching denied to Sir Ernest Satow, the British Minister, that Germany had submitted any conditions to China, but Sir Ernest Satow ascertained that Prince Ching had already accepted Germany's proposals. Lord Lansdowne then instructed Sir Ernest Satow to inform Prince Ching that his double dealing would be deeply resented and that Great Britain would not be bound by promises limiting China's and Great Britain's freedom of action regarding the maintenance of order and the protection of her interests in the Yangtze Valley region. In this Japan cordially supported Great Britain. Germany intimated she had received assurances from China and regarded the conditions as fulfilled. Lansdowne replied that he understood that these assurances referred to the whole of China excluding sovereign territorial rights already alienated. Subsequent correspondence indicates that the evacuation of Shanghai is now a matter of transports only.

STRANGE PHENOMENON ON THE WEST RIVER.

Chinese skippers are agitated at a strange phenomenon which appeared at the entrance to the West River a few days ago. We are informed that one of the *Huoguo* fleet was wending its way to one of the West River ports, and when near the entrance of Wan Moon channel, the sea, for about two miles around, became suddenly agitated, as if some huge marine monster was disturbing the water. A little later, the sea was upheaved, leaving on its surface thousands of stunned fishes. Two huge waterspouts were then seen and afterwards a shower of rain and particles of sand fell. The Chinese who are superstitious ascribe the affair to the anger of the sea gods, but we are inclined to believe that it was some seismic disturbance.

ENGLAND VERSUS AMERICA.—Yesterday afternoon, amid torrents of rain, a race took place between crews from the *Glory* and the *Kentucky*. After a hard tussle, our Transatlantic cousins proved the winners. Considerable excitement took place when the race was over, and the winners were heartily cheered.

COTTAM & CO. FOR SUN UATS.

TIENTSIN'S REMARKABLE DEVELOPMENT.

(From Our Own Correspondent.)

SLUMP FEARED.

TIENTSIN, November 26th.

As I have frequently emphasised the point that Tientsin has changed an increased very rapidly, I cannot do better perhaps than quote a list of new buildings which has been assiduously compiled by a resident interested in the remarkable development of the port, though the list does not probably include every building either completed or begun. This growth is entirely since the Siege, and the list gives a better idea of the changes here than any descriptive writing on my part.

GERMAN CONCESSION.

9 large double-story houses; 2 houses in Barrack compound; extension of Barracks; 1 church; 1 bungalow; 2 shops; 2 godowns.

AMERICAN SETTLEMENT.

1 double-story terrace of 13 shops or offices with residence.

BRITISH SETTLEMENT.

3 large double-story houses; 1 house side-quarters Chartered Bank; 3 godowns; 1 large shop; 2 large banks; 1 large house for office.

EXTRA CONCESSION.

British Municipal market 40 shops; 1 double-story house for shop; 2 godowns; 2 terraces double-story containing 40 shops Chinese ranges of buildings equal to 52 dwellings; 2 terraces for foreign residence equal to 13 dwellings; 1 large hotel; 13 large double-story houses detached; 11 large double-story houses equal to 22 dwellings; 4 large houses for Chi-ese residents; 1 Mineral Water Factory; 1 pumping tower; 1 swimming-bath; 2 terraces of double-story houses for Chinese equal to 25 dwellings; 3 moderate sized Chinese houses detached; 1 pumping engine house.

FRENCH CONCESSION.

15 large double-story detached houses some for shops, offices and dwellings, double-story terrace 4 dwellings; 6 godowns; 1 large house; 1 large Chinese hotel; 62 Chinese shops double-story in terrace; 37 Chinese shops single-story; 50 Chinese residential houses double-story in rows; 1 large hospital; 1 market; 1 electric light-house, extensive barracks.

Then there are the large Japanese barrack accommodation, a broad road along the mud wall which is the boundary of the French and Extra Concessions, besides many roads in all the Settlements.

In spite of all this building many civilians are either living in hotels, or are paying rents which they can ill afford. Formerly 500 houses are now from \$70 to \$80 and there is no immediate prospect of a reduction. Some fear that when the military go there will be a terrific slump and landlords who are gaily putting up terraces may be left in the lurch. But present indications point to a steady influx of civilians, though why they come, and how they live when they do come is a mystery to some. There seems to be no commercial justification for the influx which is causing an unnatural and unreasonable increase in prices.

THE GOLD STANDARD IN SIAM.

THE NEW S. HERM.

The announcement of yesterday that the scheme for the establishment of a gold standard in Siam has been adopted and has become law, came as a great surprise to the whole community, observes the *Bangkok Times* of the 7th ult. After the hopeless drifting of exchange from bad to worse, which recently affected the foreign community very seriously, the news caused a feeling of relief and of hopefulness. At the same time no one professed to understand how exactly Bangkok stands now or what was to be expected. What in detail is the Gold Standard scheme? was the question that everyone was asking. Well, the principle of the new law is simple enough. The mint is closed to the free coinage of silver, and in future the Government will supply tickets to all who want to buy at the fixed rate of seventeen to the pound sterling. It does not otherwise fix the value of the ticket. For the firm remitting money to Europe, or meeting a bill from Europe, here the banks will continue to quote a rate. Only in future the banks will be able to obtain the tickets they require at the one fixed price of 17 to the pound sterling. Further, the exchange rate between tickets and dollars will now vary from day to day, for necessarily the de-ree of the last reign, under which the value of the ticket was fixed at three-fifths of the Mexican dollar, has been rescinded. The effect will be in any case to increase the value of the ticket, and at the same time the minting profits of the Government will necessarily be largely increased. These profits will be set aside in a special Gold Reserve Fund with a view to the ultimate adoption of a gold currency. The time necessary for that purpose is being put, roughly, at ten years.

THE RESULT IN THE BANKS.

The surprise of yesterday afternoon has had the effect to-day of making the banks feel doubtful as to their exact position, and disinclined to do exchange business. Still the natural result of the new law was immediately seen. The Hongkong and Shanghai Bank, which yesterday quoted the dollar at 15.64, did a limited selling business this morning at 15.64, and the buying rate was 15.74. At the Banque de l'Indo-Chine the selling price quoted was 15.64, but that bank refused to do any buying, and in fact was disinclined to do business in the present uncertainty. The Chartered Bank was so disinclined to do exchange business for the same reason. That bank received a telegram from its Head Office in London to-day, announcing that forward silver has fallen 7/16 since yesterday (from 22 1/16 to 21 1/16), and that the London market is demoralised. Siam's action is no

COTTAM & CO. FOR WASHINGTON.

doubt a slight factor contributing to that result, but it can hardly be more. The Hongkong and Shanghai Bank's telegram from London this morning quoted bar silver at 21.

The Agents of the three Exchange Banks here met the Financial Adviser this afternoon to discuss the situation. They also saw their diplomatic representatives this morning, but practically it is not a matter which comes within the province of the foreign representatives.

Some of the bankers say they stand to lose the difference between 16d. and 15.2d. on transactions in hand. Chinese holders of drafts are as keen as any to see the effect of the change, and they will not present their drafts now till they can secure the better terms they will get under the new scheme. Some apprehension is also felt that when the supply of tickets is exhausted there will be very considerable difficulty in financing the rice crop. But, of course, that only means that the Banks will have to pay the Government price for the tickets they require, not that the tickets will be scarce.

For about three weeks past the Mint has been working at extreme pressure, turning out tickets.

This afternoon there was reported to be no change on yesterday's exchange rates.

A NEW BANGKOK STEAMSHIP LINE.

An interesting experiment which may lead to the opening up of new commercial centres for Bangkok trade is about to be inaugurated, with the arrival of the steamship *Atchalee* on Thursday, reports the *Bangkok Times* of the 25th ult. The intention is to establish direct communication with Singapore, Malacca, Port Swettenham, Teluk Anson, Penang, and Port Weld. With the object of rendering facilities for a regular trade between Bangkok and these ports, a service of vessels will be placed on the line so that every three weeks there will be a steamer in port. Bangkok has not previously had the advantage of any direct connection with the west coast of the Malay Peninsula, and it will be interesting to watch the success that attends the new venture. At any rate, the enterprise is deserving of the support of Bangkok merchants. In this connection it may be remarked that the Borneo Company, Limited, will receive applications for freight. The boats to be placed on the service belong to Messrs. Huttenback, Liebert and Co. of Penang.

THE FOUNDERING OF THE "KELANTAN."

A German Consular Court does not have the power to hold a Board of Trade Inquiry and issue a finding, say the *Bangkok Times*. But it is the business of any German captain who has been in a collision, or whose ship has been wrecked, to report to the nearest German Consul, and to make a declaration of the circumstances on oath. It was for this purpose that Capt. Bruband and Capt. Littmann recently attended at the Legation, and the sworn declarations then made with regard to the recent collision between the *Kelantan* and *Phra Chom Klao*, will be forwarded home by Dr. von der Heyde, and the Board of Trade will in due course deal with the matter.

The s.s. *Kelantan* was sold privately the other afternoon to Messrs. Mackay and MacArthur, Marine Surveyors, etc., on behalf of a syndicate for 17,500 dollars. The work of raising the vessel has been placed in the hands of the Bangkok Dock Co.

OUR LONDON LETTER.

(From Our Own Correspondent.)

A BAD WINTER OUTLOOK.

FLEET ST., Nov. 7th.

The summer in England has been so inclement, and trade has suffered so much in consequence, that the outlook for the winter is anything but encouraging. The number of those chargeable on the rates is abnormal, even if we subtract the army reserves who find themselves ill-provided for now the war is over. The Derby workhouse is so overcrowded that the Local Government Board is bringing pressure to bear on the Guardians to induce them to provide more room. At Aitcham the children are housed in a workhouse already too full, while the Ipswich Board is finding the number of applicants out of all proportion to its housing capacity. These are merely samples of the general condition, but besides the increased number of indoor paupers, the gradual increase of vagrants is very serious. In one day 1,144 vagrants were relieved in London. In the Union of Newcastle-under-Lyme the tramps relieved in 1899 were 5,510; in 1900, 6,388; and during 1901, 7,610. The same news is repeated in the recently-issued report of the Local Government Board. The figures have risen in the last twenty-five years from 3,790 to 9,719. Altogether, Christmas in England will not be so very merry after all.

To mention only one industry affected by the weather, I notice that the local committee, who are appealing to those interested in the hop and fruit industry on behalf of the sufferers by the great storm in the Medway Valley on September 10, have made a revised estimate, in which they calculate the damage at about £30,000, and ask for least £100,000 to save a number of the losers from bankruptcy. The response so far has been about £1,700.

Sir James Mackay's return to England from his labours in China, in respect to the Likan Treaty, was quite lost sight of by the general public last week. Official circles, however, paid him great attention and there were at the railway station to meet him the Marquis of Lansdowne, Viscount Cranborne, Earl Roberts, and a number of personal friends. Sir James

COTTAM & CO. FOR PANAMA HATS.

rested over the week-end, but on Monday attended a meeting of the India Council, of which he is a member. Since then he has had several conferences with the Foreign Secretary and the permanent officials at the Foreign Office.

The Likan Treaty is not over popular in England. A parliamentary correspondent writes to me as follows:—

There is a good deal of feeling amongst Parliamentarians who are interested in the East that the Likan Treaty, which has been negotiated by Sir James Mackay is

NOT SUCH A TRIUMPH as has been made out. The Government will be pressed to publish the full terms of the Treaty. All commercial nations have, of course, an interest in these terms, seeing that they are expected to follow suit, and if they are expected to consent to taxes of 12½ per cent. against the 5 or 6 per cent. which, according to indisputable authority, the Likan represented, the Treaty negotiated by Sir James may turn out to be a dead letter. Anyway China stands to profit twice as much as we do by the transaction.

There are persistent rumours in Society circles that a well-known peer has been compelled to leave the country in order to escape prosecution on a criminal charge of a most serious character. Sensational developments may be expected. A very unsavoury case has been on trial during the week in an East Anglian city, which, it is said, has a connection with this peer. Two men, who have been living sumptuously in the West-End, were sent to long terms of imprisonment, and it is said that certain mysterious persons anonymously referred to during the proceedings are so highly placed that they have been able to compromise with prosecution by a hasty retreat from England. I have heard the name of a peer mentioned, but I doubt the accuracy of the designation too much to give a hint as to his personality.

Married in December 1896, Olga Mary Adelaide Hamilton, the handsome daughter of Admiral Fitz George, and granddaughter of the Duke of Cambridge, was divorced on Friday from her husband, Mr. Charles Edward Watkin Hamilton, eldest son of Sir Edward Archibald Hamilton. Misconduct and desertion were proved. To the only child of the marriage, the Prince and Princess of Wales and the Duke of Cambridge personally stood sponsors in 1898.

The Keeper of the Department of Oriental Literature at the British Museum, Professor Douglas, has obtained for the museum a curiosity in the shape of

A CHINESE BANK NOTE.

of the fourteenth century, which was three hundred years old prior to the introduction of paper money into Europe. The note in question was discovered in the ruins of a bronze statue, probably of Buddha, at Peking.

Sir Thomas Lipton has got into hot-water with officialdom. He wrote to the American General Corbin, who was recently in England, assuring him that at a recent interview with the King, his Majesty told him a commission would be sent from England to the St. Louis Exhibition and indicated other steps to mutually interest the peoples of the two countries. General Corbin, like a good American, got any amount of newspaper notoriety out of this letter, and it was cabled back to London. The Foreign Office, and indeed all the older side of officialdom, is shocked at the idea of "the grocer" acting as the King's confidence keeper on international affairs. They declare that Sir Thomas's social prestige is bound to suffer from this indiscretion. Outside these centres of dignity and red tape people take very little notice of it.

I hear, on good authority, that one of the first matters to which Lord Kitchener will devote his attention when he arrives in India will be the re-organisation of the gun and ammunition stores of that country, including their re-equipment. Like his predecessor, Sir Power Palmer, he believes that India ought to be made, as far as the supply of her army is concerned, entirely self-supporting; and he is convinced that an extension of the Indian military factories is necessary. When he has satisfied himself on the best positions for the factories, he will probably advise an immediate extension and addition.

Next year's expenditure out of the Indian Exchequer promises to be heavier than customary. Estimates which are being prepared at the India Office provide for unusually large sums for irrigation works and a whole network of light railways. The financial position and prospects of the country are regarded as being so much more favourable than during recent years of famine and plague, that arrears of several years are to be made up.

A correspondent in Paris informs me that M. Delcasse, the Minister of Foreign Affairs, is devoting much attention to the French Consular service. He announces this week his intention to establish a new vice-consulate in Swatow. New posts will also be created in Persia and Cuba.

When Mr. Chamberlain reaches the Cape he will find plenty of newspaper matter of a personal kind. Every London correspondent of South African newspapers has received instructions to send every available item, clipping and cartoon about the Colonial Secretary. One important daily in Johannesburg will give a column of "Chamberlainia" daily during his trip; another is to run the story of his life in serial form. Altogether, "Pushful Joseph," who is not really averse to the uses of this form of advertisement, will have little cause to complain of the attention paid to him.

Important correspondence is passing, I am told, between the Foreign Office and Japan on the future status of foreigners in Corea. Japan points out the growing influence of Russia in Corea, and urges that England and America especially cannot afford to allow it to grow too far. The matter should be settled once and for all.

Commercial.

TO-DAY'S INTELLIGENCE.

There is very little doing in the share market. BANKS, sales \$552.50 and \$552, and there are buyers at the latter rate. There being an opposition to the HONGKONG, CANTON & MACAO STEAMBOATS talked of, these shares are rather weaker. Small sales have been made at \$37 and there are now sellers at \$36.75; but with no response from buyers. INDO-CHINA are freely offering from Shanghai, and small sales effected at \$92.50 and \$92. CHINA SUGAR are weaker with sales at \$85 and \$84. Small sales have been done in HONGKONG & WHAMPOA DOCKS at \$15, and there are more shares offering at that rate. HONGKONG LANDS are in strong demand, and several lots have been placed at \$183 and \$184, and are still wanted at latter figure. CHINA PROPERTIES & HONGKONG HOTELS are in demand, and sales have been made at \$9.75 and \$14 respectively. GREEN ISLAND CEMENTS are in request at \$20. DOUGLAS STEAMSHIPS are strong with buyers at \$42.

THE HONGKONG TELEGRAPH.

1, ICE HOUSE ROAD, HONGKONG.

CABLE ADDRESS.—Telegraph, Hongkong.

THE leading English Newspaper in China

Also widely circulated in Japan, Ceylon, China, Ceylon, India and the Far East generally.

A daily newspaper with weekly edition published for despatch by the homeward mail. The daily is recommended as more generally suitable, except for subscribers in Europe or America.

A special feature is made of full and accurate reports of local occurrences, and of matters of general interest.

ADVERTISING DEPARTMENT.

The Hongkong Telegraph is the best medium for advertising in China. It circulates largely among all classes of the community, is the largest daily newspaper and has a wider circulation than any journal in the Far East.

Special attention given to effectively displaying advertisements.

The type used as a standard for setting advertisements is similar to this, unless we are instructed to display the advertisement, when any effective style of type will be adopted. This standard runs exactly eight lines to the inch, and about eight words to the line.
